Honorable David De Alba, Presiding Judge
Sacramento Superior Court
720 Ninth Street, Department 47
Sacramento, CA 95814

RE: Response to Findings in 2017-2018 Final Report of the Sacramento County Grand Jury

Dear Honorable Judge De Alba:

The Cosumnes Community Services District Fire Department (CFD) appreciates the commitment of the Sacramento County Grand Jury to ensure that government agencies within the County are managed efficiently, honestly, and fairly.

Pursuant to Penal Code sections 933(c) and 933.05, the following responses are submitted in regard to the 2017-2018 Grand Jury's final report entitled *Cosumnes Fire Department: "Second Chance to Make It Right" – School Inspections*.

We are proud of the hard work and integrity of the men and women of CFD, and we welcome this opportunity to communicate our ongoing improvements in inspection practices. Please do not hesitate to contact me at (916)405-7101 if you have any questions.

Respectfully submitted,

Michael W. McLaughlin, CFO
Fire Chief

Cc: Sacramento County Clerk-Recorder's Office
Grand Jury Office
Becky Castaneda, Grand Jury Coordinator

As stipulated in the Sacramento County Grand Jury 2017-2018 Final Report and Penal Code sections 933 and 933.05, the Fire Chief of the Cosumnes Fire Department (CFD) shall submit specific responses to findings and recommendations #1, 2, 3, 5.

Finding F1: CFD has an ongoing lack of focus, priority and accountability in regard to inspections.

CFD's Response: CFD is in partial agreement with the finding.

- In late 2016, the CFD identified that there were deficiencies in regard to the ongoing inspections of existing occupancies, including schools. Since this time, the CFD has committed considerable time and resources toward bringing the fire and life safety inspections program into compliance with the California Fire Code.

Recommendation R1: Amend the job description of the Fire Marshal to include responsibility and accountability for California Fire Code required inspections. It is recommended that the CFD implement scheduled rotation of all inspectors through all inspectable job classifications.

CFD's Response: CFD is in concurrence with this recommendation.

- CFD staff, in coordination with the Cosumnes Community Services District (CSD) Human Resources Department, will amend the Fire Marshal job description to clearly articulate accountability for ensuring that the California State Fire Marshal mandated fire inspections are completed. The revised job description will be approved by the Cosumnes CSD Board of Directors by the end of December 2018.
- All Fire Inspectors begin as a Fire Inspector I and are trained in the interpretation and application of all codes and standards pertaining to inspection practices. As they promote to a Fire Inspector II, they also receive training in those codes and standards pertaining to new building construction. Consequently, all Fire Inspector positions (I/II) are trained in/capable of performing existing occupancy inspections. CFD staff will develop a policy and procedure to formalize this practice by the end of December 2018.
- See Appendix A for current Fire Marshal job description.

Finding F2: There is a lack of documentation of inspections and re-inspections.

CFD's Response: CFD is in partial agreement with this finding.

- In late 2016, the CFD identified that there were deficiencies in regard to the ongoing inspections of existing occupancies, including schools. The lack of documentation was a direct result of not having completed inspections and re-inspections of these types of occupancies.

- In 2017, the inspections and re-inspections of existing occupancies were reimplemented. As a result, the documentation for the inspections and re-inspections is complete and thorough.

Recommendation R2: Establish and develop a training program for all applicable personnel and a staff of fully trained professionals to ensure continuity in the processing of the documents.

CFD's Response: CFD is in non-concurrence with this recommendation.

- The lack of documentation stemmed from inspections and re-inspections not being completed, not a lack of training or trained personnel.
- See Appendix B for inspection/re-inspection compliance reports and training samples.

Finding F3: Previously purchased ImageTrend software has not been fully implemented.

CFD's Response: CFD is in partial agreement with this finding.

- At the time of the Grand Jury investigation, the CFD was in the beginning stages of implementing the fire inspection modules with the system.
- In November 2017, the CFD hired a management analyst who is responsible for the administration of the ImageTrend system.
- On July 16, 2018, the ImageTrend Mobile Inspection Module was implemented, and all school inspections are being completed using the system. The CFD is in the process of expanding the use of the system to new construction inspections.

Recommendation R3: Fully implement ImageTrend software to improve documentation of inspections and re-inspections. The data system should include the ability to capture and identify violations, especially repetitive violations. Work with vendor on technical support.

CFD's Response: CFD is in concurrence with this recommendation.

- On July 16, 2018, the ImageTrend Mobile Inspection Module was implemented, and all school inspections are being completed using the system. Complete
- See Appendix C for ImageTrend inspection report, violation notice, and reports.

Finding F5: There is no incentive for schools to resolve listed violations due to lack of CFD enforcement. Not correcting these violations increases the risk to children in Elk Grove and Galt School Districts.

CFD's Response: The CFD is in partial agreement with this finding.

- In late 2016, the CFD identified that there were deficiencies in regard to the ongoing inspections of existing occupancies, including schools. Since this time, the CFD has committed considerable time and resources toward bringing the fire and life safety inspections program into compliance with the California Fire Code (CFC).
- Since the initiation of inspections and re-inspections, the schools have been very responsive and have worked to address all identified violations. It is important to note that all conditions that posed an immediate threat to life and health were addressed at the time of the inspection.

Recommendation R5: CFD should process unresolved violations after re-inspections by issuance of citations

CFD's Response: CFD is in concurrence with this recommendation

- Presently, the jurisdiction for issuing administrative citations resides with Sacramento County and the Cities of Elk Grove and Galt. In 2019, CFD will be adopting the 2019 edition of the California Fire Code per the requirements in California Health and Safety Code §13869.7. This adoption process will vest citation authority with the CFD. This will allow CFD personnel to issue citations for violations of provisions in the California Fire Code. The CFC adoption process will be complete by December 31, 2019. Concurrently, a CFD policy will be created, citation books will be purchased, and training will be conducted for appropriate personnel in administrative citation procedures.
- CFD staff is in the process of issuing a request for proposal (RFP) to update the fire prevention fee program to include cost recovery and administrative fees. The objective is to complete the fee study and adopt the revised ordinance, including administrative citation fees, on or before January 1, 2019.
- The 2019 CFC adoption, the updated Ordinance 7 fee adoption and the new Administrative Citation Policy will provide CFD both the needed legal authority and the fee structure to issue administrative citations for violations of CFC provisions.

Appendix A

Finding and Recommendation 1

COSUMNES COMMUNITY SERVICES DISTRICT

FIRE MARSHAL/ASSISTANT FIRE CHIEF

DEFINITION

Under the leadership and limited supervision of the Fire Chief, provides management and direction for the Fire Prevention Division of the Fire Department including planning, organizing, directing, coordinating and controlling the functions of the Division; performs incident command functions; performs fire investigations, criminal and civil litigation, arrest, search and seizure. Additionally, incumbent provides highly responsible and technical staff assistance to the Fire Chief and the Deputy Fire Chief and perform related work as required.

As a member of the management team of the fire service, the Fire Marshal/Assistant Fire Chief shall have the obligation to provide the Fire Chief and Deputy Fire Chief, in private, the full benefit of his/her honest advice and/or opinion pertaining to proposed or existing policies, procedures and/or decisions. Once final decisions are made, the Fire Marshal/Assistant Fire Chief shall publicly promote and fully support and sustain the policies, procedures and/or decisions of the Fire Chief, the Deputy Fire Chief, the General Manager and/or the Board.

SUPERVISION RECEIVED AND EXERCISED

Incumbent reports to the Fire Chief and provides direct or indirect supervision within the assigned division to Assistant Fire Marshall, Fire Inspectors and other subordinate staff which may include administrative, professional and clerical classifications within the assigned division.

ESSENTIAL DUTIES AND RESPONSIBILITIES

The following duties are intended only as illustrations of the various types of work that may be performed. The omission of specific statement on duties does not exclude them from the position if the work is similar, related or a logical assignment to the position. Each individual in the classification does not necessarily perform all the duties listed. Employees may perform other related duties at an equivalent level as required.

- Administrates all aspects of Fire Prevention Division;
- Creates Division goals and objectives and modifies same based on needed changes;
- Tracks and evaluates staff's progress individually on assigned tasks;
- Evaluates impact of goals and objectives on fire and loss of life in the community;
- Responsible for budget development and overview of programs/divisions to which assigned;
- Dependent upon the qualifications of the incumbent, and approval of the Fire Chief, may respond to emergency incidents and function in any position the employee is qualified for within the incident command system;
- Directly and indirectly supervises Fire Prevention Division staff including recruiting, planning, assigning and reviewing work, planning, maintaining standards, coordinating activities, allocating personnel, acting on employee problems, and recommending step increases and discipline; writes performance evaluations; arranges scheduling and overtime when necessary;
- Provides staff with training, equipment and direction to obtain goals and objectives;
- Performs and assigns fire investigations, criminal and civil litigation, arrest, search and seizure;
- Manages the Department Armament Program;
- Participates with staff and governing boards of other local public agencies within the jurisdiction in planning growth, including future fire department facilities, community design and infrastructure needs for fire and life safety;
- Represents the Department at public meetings, hearings and committees;
- May act as a Public Information Officer at the scene of a fire investigation;

- Interprets and provides information on Departmental Policies and Procedures for Division employees, representatives of other public agencies and the media;
- Aids staff with difficult new and existing facility fire/life safety decisions;
- Performs various related essential duties as required;
- May respond to incidents as requested by the Incident Commander or as outlined in the Standard Operating Procedure on investigations;
- May be subject to callback, as needed.

MINIMUM QUALIFICATIONS

Any equivalent combination of education, training, and experience which provides the required skills, knowledge, and abilities may be considered qualifying at the sole discretion of the District. A typical way to obtain the knowledge and skills would be:

Education: An Associates Degree is highly recommended. A Bachelor's Degree from an accredited college with major course work in a field applicable to the services provided in the CSD is preferred.

Effective January 1, 2014, a Bachelor of Arts or Bachelor of Science degree from an accredited college or university with major course work in a field applicable to the service delivered by the Community Services District is required.

Experience: Experience at the Battalion Chief level with a minimum of four years of experience at the supervisory level; work experience in more than one Division is desirable; or any equivalent combination of training and experience which provides the required skills, knowledge and abilities.

Special Requirements:

- In the absence of an Associates degree or higher in fire science, a Fire Science Certificate is required.
- Must possess Penal Code § 832 Certificate including firearm module.
- Must possess Incident Command Certification.
- Must possess and maintain throughout employment a valid California class "C" driver's license with a driving record sufficient to be insurable through the District.
- All candidates for this position will be subject to a department approved physical fitness exam. Fitness for duty exam may be required as stipulated in the current MOU or SOP.
- All candidates for this position must pass a standard safety position psychological examination as appropriate.
- Must keep knowledge, skills and education current, through seminars, employee development classes or formal education.

Knowledge of:

- Principles and practices of management necessary to plan, analyze, develop, direct and evaluate fire prevention programs, administrative policies and fire control problems
- Current research and development in the fields of fire prevention, fire suppression, fire administration and master planning; principles and modern methods of fire administration including organization, negotiation, fiscal management, budgetary preparation and controls, program planning, implementation and administration
- Principles, practices and techniques of fire suppression and provisions of local fire code requirements and related ordinances
- Federal and State laws and typical rules and procedures governing the activities of a fire district serving extensive urban, industrial and wildland areas
- the budget development and oversight process; financial administration;
- principles and techniques of supervision and training including the techniques of performance evaluations, employee counseling and progressive discipline;

- Operation, capabilities and maintenance of the various types of apparatus and equipment used in modern fire suppression
- methods of inventory control and purchasing;
- computer equipment and office machines.

Ability to:

- Assign, review, plan and coordinate other employees including providing instruction and guidance;
- Promote staff development and motivation;
- Assess the work of employees, write performance appraisals, recommend the transfer, promotion, step increase, or corrective action as appropriate;
- Analyze problems that arise in the areas of supervision and recommend solutions;
- Coach and counsel subordinate staff; recommend appropriate discipline of staff as needed;
- Operate both as a member of a team and independently;
- Effectively communicate with individuals or groups both internally and externally utilizing a broad base of verbal skills;
- Use independent judgment in periodically non-routine situations involving risk in decision making, errors in which could result in injury or death to self, staff or public;
- Prepare written correspondence as directed using prescribed format and conforming to all rules of punctuation, grammar, diction and style;
- Perform complex tasks during life threatening emergencies;
- Apply principles of influence systems such as supervising, instructing, and rational systems such as budgeting;
- Use manual and power tools in performance of duties;
- Comprehend and correctly use a variety of reference books and manuals as well as informational documents, reference books, maps and manuals
- Operate a variety of automated office machines and fire prevention/suppression machines and equipment including a calculator, camera, copier, fax machine, telephone, personal computer, fire radios, breathing apparatus and vehicle'
- Perceive all colors, hear, feel, and perceive odors immediately;
- Add, subtract, multiply and divide; calculate decimals, ratios, percentages and fractions.

Physical Requirements:

- **Mobility:** Frequent work in offices and buildings; occasional moderate to severe amount of physical effort to climb ladders, stooping, bending, squatting, exerting a moderate to considerable amount of effort to lift, carry, push, pull or otherwise move objects weighing up to 50 pounds; rarely working in high places and in closely confined places;
- **Vision/Talking/Hearing** Regular reliance on sense of sight, hearing, smell and touch while on fire grounds to aid in assigned duties and maintain personal safety; color vision sufficient to perform assigned duties safely; visual acuity sufficient to drive vehicles, read blueprints, specifications, fine print and Video Display Terminals; hear well enough to identify mechanical noises, to converse on the radio, telephone, and in person over incident noise;
- **Dexterity:** Occasional performance of a variety of tasks on slippery, hazardous surfaces such as on rooftops or from ladders;
- **Emotional/Psychological:** Occasional work for long periods of time requiring sustained physical and intense concentration; occasional physically demanding work in hot conditions while wearing equipment which significantly impairs body cooling mechanisms; or in wet, icy or muddy conditions; infrequent exposure to grotesque sights and smells associated with major trauma and burn victims;
- **Driving:** Ability to use fine and gross motor coordination for driving;
- **Potential Exposures:** Occasional work outside in all weather conditions under hazardous conditions within burning structures where sustaining a traumatic or thermal

- injury is possible or where exposure to hazardous materials is possible;
- No person shall pose a direct threat to themselves, to the health and safety of other individuals in the work place, or to the public they serve.

Typical Working Conditions:

Incumbents are typically assigned work both in an indoor and outdoor environment which may take place in various types of weather and high temperatures. Work may take place in environments of high noise, poor visibility, limited mobility, at heights, and in enclosed or confined spaces Work may involve exposure to hazardous and/or carcinogenic materials through inhalation or skin contact and on rare occasions may include exposure as outlined above. Work will include traveling from site to site in a vehicle.

(j) It is the responsibility of the contractor, company or licensee to provide a written report of the test and maintenance results to the building owner and the local fire authority having jurisdiction at the completion of the testing and maintenance.	Alarm records need to be readily available
605.5.1	Room K-1	29	Extension cords shall be plugged directly into an approved receptacle, power tap or multiplug adapter and, except for approved multiplug extension cords, shall serve only one portable appliance.	Power strip on projector cart needs to be replaced with surge protection
605.5.1	Room B-2	29	Extension cords shall be plugged directly into an approved receptacle, power tap or multiplug adapter and, except for approved multiplug extension cords, shall serve only one portable appliance.	Projection cart power strip needs surge protection
605.3	Room B-2	29	A working space of not less than 30 inches (762 mm) in width, 36 inches (914 mm) in depth and 78 inches (1981 mm) in height shall be provided in front of electrical service equipment. Where the electrical service equipment is wider than 30 inches (762 mm), the working space shall be not less than the width of the equipment. Storage of materials shall not be located within the designated working space. Exceptions: ? Where other dimensions are required or allowed by?California Electrical Code. ?Access openings into attics or under-floor areas which provide a minimum clear opening of 22 inches (559 mm) by 30 inches (762 mm).	Book cart blocking electrical panel needs to be relocated
605.5.1	Room B-3	29	Extension cords shall be plugged directly into an approved receptacle,	Power strip

Date Completed: 8/2/2018

			power tap or multiplug adapter and, except for approved multiplug extension cords, shall serve only one portable appliance.	on projector cart needs surge protection
605.5.1	Room B-4	29	Extension cords shall be plugged directly into an approved receptacle, power tap or multiplug adapter and, except for approved multiplug extension cords, shall serve only one portable appliance.	
605.5	Room C-4	29	Extension cords and flexible cords shall not be a substitute for permanent wiring. Extension cords and flexible cords shall not be affixed to structures, extended through walls, ceilings or floors, or under doors or floor coverings, nor shall such cords be subject to environmental damage or physical impact. Extension cords shall be used only with portable appliances.	Electrical cords need hard damage protection cover
605.5	Room C-3	29	Extension cords and flexible cords shall not be a substitute for permanent wiring. Extension cords and flexible cords shall not be affixed to structures, extended through walls, ceilings or floors, or under doors or floor coverings, nor shall such cords be subject to environmental damage or physical impact. Extension cords shall be used only with portable appliances.	Cart power strip needs to be replaced with a power strip that has surge protection
605.5.1	Room D-3	29	Extension cords shall be plugged directly into an approved receptacle, power tap or multiplug adapter and, except for approved multiplug extension cords, shall serve only one portable appliance.	Replace with a power strip that has surge protection
906.3	Room D-6	29	The size and distribution of portable fire extinguishers shall be in accordance with Sections 906.3.1 through 906.3.4. [California Code of Regulations, Title 19, Division 1, ?567(a) through (k)] Distribution of Fire Extinguishers. (a) The minimum number of fire extinguishers needed to protect a property shall be determined as outlined in this section. Additional extinguishers may be installed to provide more suitable protection. (b) Fire extinguishers shall be provided for the protection of both the building structure and the occupancy hazards contained therein. (c) Required building protection shall be provided by fire extinguishers suitable for Class A fires. (d) Occupancy hazard protection shall be provided by fire extinguishers suitable for such Class A, B, C, D or K fire potentials as may be present. (e) Extinguishers provided for building protection may be considered also for the protection of occupancies having a Class A fire potential. (f) Buildings having an occupancy hazard subject to Class B and/or Class C fires shall have a standard complement of Class A fire extinguishers for building protection, plus additional Class B and/or Class C extinguishers. Where fire extinguishers have more than one letter classification (such as 2-A:20-B:C), they may be considered to satisfy the requirements of each letter class. When using multipurpose extinguishers for the protection of Class B hazards, the maximum travel distances described in California Code of Regulations, Title 19, Division 1, Section 568, Table 2 must be observed. (g) Rooms or areas shall be classified generally as light (low) hazard, ordinary (moderate) hazard, or extra (high) hazard. Limited areas of greater or lesser hazard shall be protected as required. (h) On each floor level, the area protected and the travel distances shall be based on fire extinguishers installed in accordance with California Code of Regulations, Title 19, Division 1, Section 568, Tables 2 and 3. (i) Fire extinguishers shall not be obstructed or obscured from view. Exception: In large rooms, and in certain locations where visual obstruction cannot be completely avoided, means shall be provided to indicate the fire extinguisher's location. (j) Fire extinguishers shall be conspicuously located along normal paths of travel where they will be readily accessible and immediately available in the event of a fire. (k) Where wheeled extinguishers are installed, aisles and doorways through which such extinguishers are to be moved shall have a clear	Move fire extinguisher to another location near door that allows open access

Date Completed: 8/2/2018

and unobstructed width not less than one foot wider than the overall width of the extinguisher. [California Code of Regulations, Title 19, Division 1, ?568(a) through (e)] Fire Extinguisher Size and Placement for Class A Hazards. (a) Minimum sizes of fire extinguishers for the listed grades of hazards shall be provided on the basis of California Code of Regulations, Title 19, Division 1, Section 568, Table 2, except as modified by California Code of Regulations, Title 19, Division 1, Section 568(d). Extinguishers shall be located so that the maximum travel distances shall not exceed those specified in California Code of Regulations, Title 19, Division 1, Section 568, Table 2, except as modified by California Code of Regulations, Title 19, Division 1, Section 568(d). (b) Certain smaller fire extinguishers which are charged with a multipurpose dry chemical or halogenated agent are rated on Class B and Class C fires, but having insufficient effectiveness to earn the minimum 1-A rating even though they have value in extinguishing smaller Class A fires. They shall not be used to meet the requirements of California Code of Regulations, Title 19, Division 1, Section 568, Table 2. (c) Extinguishers as specified in California Code of Regulations, Title 19, Division 1, Section 568, Table 2 may be replaced by uniformly spaced 1 1/2 inch (3.810 cm) hose stations for use by the occupants of the building. When hose stations are so provided, they shall conform to Part 9, Title 24, California Code of Regulations, Chapter 9. The location of hose stations and the placement of fire extinguishers shall be in such a manner that the hose stations do not replace more than every other extinguisher. (d) Where the floor area of a building is less than that specified in California Code of Regulations, Title 19, Division 1, Section 568, Table 2, at least one extinguisher of the minimum size recommended shall be provided. (e) The protection requirements may be fulfilled with extinguishers of a higher rating provided the travel distance from anywhere in the building to such larger extinguishers shall not exceed 75 feet (22.7 m), as shown in California Code of Regulations, Title 19, Division 1, Section 568, Table 2 above. TITLE 19, DIVISION 1, SECTION 568, TABLE 2 [California Code of Regulations, Title 19, Division 1, ?569(a) through (c)] Fire Extinguisher Size and Placement for Class B Fires Other than for Fires in Flammable Liquids of Appreciable Depth. (a) Minimum sizes of fire extinguishers for the listed grades of hazard shall be provided on the basis of California Code of Regulations, Title 19, Division 1, Section 569, Table 3. Extinguishers shall be located so that the maximum travel distances from anywhere in the building shall not exceed those specified in the table used. Exception: Extinguishers of lesser rating, desired for small specific hazards within the general hazard area, may be used, but shall not be considered as fulfilling any part of the requirements of California Code of Regulations, Title 19, Division 1, Section 569, Table 3. TITLE 19, DIVISION 1, SECTION 569, TABLE 3 (b) Two or more extinguishers of lower rating shall not be used to fulfill the protection requirements of California Code of Regulations, Title 19, Division 1, Section 569, Table 3. (c) The protection requirements may be fulfilled with extinguishers of high ratings, provided the travel distance to such larger extinguishers shall not exceed 50 feet (15.25 m), as shown in California Code of Regulations, Title 19, Division 1, Section 569, Table 3. [California Code of Regulations, Title 19, Division 1, ?570(a) through (e)] Fire Extinguisher Size and Placement for Class B Fires in Flammable Liquids of Appreciable Depth. (a) Portable fire extinguishers shall not be installed as the sole protection for flammable liquid hazards of appreciable depth [greater than 1/4 inch (0.64 cm)] where the surface area exceeds 10 square feet (0.93 m²). Exception: Where personnel who are trained in extinguishing fires in the protected hazards are available on the premises, the maximum surface area shall not exceed 20 square feet. (1.86 m²). (b) For flammable liquid hazards of appreciable depth, a Class B fire extinguisher shall be provided on the basis of at least two numerical units of Class B extinguishing potential per square feet (0.0929 m²) of flammable liquid surface of the largest hazard area. For fires involving cooking grease or water-soluble flammable liquids, see California Code of Regulations, Title 19, Division

1, Section 566(b) and 566(d). Exception: AFFF- or FFFP-type extinguishers may be provided on the basis of a 1B rating of protection per square foot of hazard. (c) Two or more extinguishers of lower ratings shall not be used in lieu of the extinguisher required for the largest hazard area. Exception: Up to three AFFF or FFFP extinguishers may be used to fulfill the requirements provided the sum of the Class B ratings meets or exceeds the value required for the largest hazard area. (d) Travel distances for portable extinguishers shall not exceed 50 feet (15.25 m) as shown in California Code of Regulations, Title 19, Division 1, Section 569, Table 3. (e) Scattered or widely separated hazards shall be individually protected. An extinguisher in the proximity of a hazard shall be carefully located to be accessible in the presence of a fire without undue danger to the operator. [California Code of Regulations, Title 19, Division 1, 7571(a)] Fire Extinguisher Size and Placement for Class C Hazards. (a) Fire extinguishers with Class C ratings shall be required where energized electrical equipment can be encountered which would require a nonconducting extinguishing medium. This requirement includes situations where fire either directly involves or surrounds electrical equipment. Since the fire itself is a Class A or Class B hazard, the fire extinguishers shall be sized and located on the basis of the anticipated Class A or Class B hazard. Note: Electrical equipment should be de-energized as soon as possible to prevent reigniting.

605.5	Room D-6	29	Extension cords and flexible cords shall not be a substitute for permanent wiring. Extension cords and flexible cords shall not be affixed to structures, extended through walls, ceilings or floors, or under doors or floor coverings, nor shall such cords be subject to environmental damage or physical impact. Extension cords shall be used only with portable appliances.	Extension cords are not allowed to be used in place of permanent wiring
605.5.1	Room D-6	29	Extension cords shall be plugged directly into an approved receptacle, power tap or multiplug adapter and, except for approved multiplug extension cords, shall serve only one portable appliance.	Replace with a power strip that has surge protection
605.3	Room D-7	29	A working space of not less than 30 inches (762 mm) in width, 36 inches (914 mm) in depth and 78 inches (1981 mm) in height shall be provided in front of electrical service equipment. Where the electrical service equipment is wider than 30 inches (762 mm), the working space shall be not less than the width of the equipment. Storage of materials shall not be located within the designated working space. Exceptions: ? Where other dimensions are required or allowed by?California Electrical Code. ?Access openings into attics or under-floor areas which provide a minimum clear opening of 22 inches (559 mm) by 30 inches (762 mm).	Move items away from the electrical panel door
605.5.1	Room D-7	29	Extension cords shall be plugged directly into an approved receptacle, power tap or multiplug adapter and, except for approved multiplug extension cords, shall serve only one portable appliance.	Replace with a power strip that has surge protection
605.5.1	Room E-2	29	Extension cords shall be plugged directly into an approved receptacle, power tap or multiplug adapter and, except for approved multiplug extension cords, shall serve only one portable appliance.	Replace with a power strip that has surge protection
605.5.1	Room E-5	29	Extension cords shall be plugged directly into an approved receptacle, power tap or multiplug adapter and, except for approved multiplug extension cords, shall serve only one portable appliance.	Replace with a power strip that has surge protection
605.5	Room F-1 orange extension	29	Extension cords and flexible cords shall not be a substitute for permanent wiring. Extension cords and flexible cords shall not be affixed to structures, extended through walls, ceilings or floors, or	Extension cords are not allowed

Violations

Table with 4 columns: Violation Code, Violation Location, Description, and Comments. It lists five violations related to record keeping, extension cords, and working space.

Date Completed: 8/31/2018

605.5.1	Room B-4	Extension cords shall be plugged directly into an approved receptacle, power tap or multiplug adapter and, except for approved multiplug extension cords, shall serve only one portable appliance.	
605.5	Room C-4	Extension cords and flexible cords shall not be a substitute for permanent wiring. Extension cords and flexible cords shall not be affixed to structures, extended through walls, ceilings or floors, or under doors or floor coverings, nor shall such cords be subject to environmental damage or physical impact. Extension cords shall be used only with portable appliances.	Electrical cords need hard damage protection cover
605.5	Room C-3	Extension cords and flexible cords shall not be a substitute for permanent wiring. Extension cords and flexible cords shall not be affixed to structures, extended through walls, ceilings or floors, or under doors or floor coverings, nor shall such cords be subject to environmental damage or physical impact. Extension cords shall be used only with portable appliances.	Cart power strip needs to be replaced with a power strip that has surge protection
605.5.1	Room D-3	Extension cords shall be plugged directly into an approved receptacle, power tap or multiplug adapter and, except for approved multiplug extension cords, shall serve only one portable appliance.	Replace with a power strip that has surge protection
906.3	Room D-6	The size and distribution of portable fire extinguishers shall be in accordance with Sections 906.3.1 through 906.3.4. [California Code of Regulations, Title 19, Division 1, 567(a) through (k)] Distribution of Fire Extinguishers. (a) The minimum number of fire extinguishers needed to protect a property shall be determined as outlined in this section. Additional extinguishers may be installed to provide more suitable protection. (b) Fire extinguishers shall be provided for the protection of both the building structure and the occupancy hazards contained therein. (c) Required building protection shall be provided by fire extinguishers suitable for Class A fires. (d) Occupancy hazard protection shall be provided by fire extinguishers suitable for such Class A, B, C, D or K fire potentials as may be present. (e) Extinguishers provided for building protection may be considered also for the protection of occupancies having a Class A fire potential. (f) Buildings having an occupancy hazard subject to Class B and/or Class C fires shall have a standard complement of Class A fire extinguishers for building protection, plus additional Class B and/or Class C extinguishers. Where fire extinguishers have more than one letter classification (such as 2-A:20-B:C), they may be considered to satisfy the requirements of each letter class. When using multipurpose extinguishers for the protection of Class B hazards, the maximum travel distances described in California Code of Regulations, Title 19, Division 1, Section 568, Table 2 must be observed. (g) Rooms or areas shall be classified generally as light (low) hazard, ordinary (moderate) hazard, or extra (high) hazard. Limited areas of greater or lesser hazard shall be protected as required. (h) On each floor level, the area protected and the travel distances shall be based on fire extinguishers installed in accordance with California Code of Regulations, Title 19, Division 1, Section 568, Tables 2 and 3. (i) Fire extinguishers shall not be obstructed or obscured from view. Exception: In large rooms, and in certain locations where visual obstruction cannot be completely avoided, means shall be provided to indicate the fire extinguisher's location. (j) Fire extinguishers shall be conspicuously located along normal paths of travel where they will be readily accessible and immediately available in the event of a fire. (k) Where wheeled extinguishers are installed, aisles and doorways through which such extinguishers are to be moved shall have a clear and unobstructed width not less than one foot wider than the overall width of the extinguisher. [California Code of Regulations, Title 19, Division 1, 568(a) through (e)] Fire Extinguisher Size and Placement for Class A Hazards. (a) Minimum sizes of fire extinguishers for the listed grades of hazards shall be provided on the basis of California Code of Regulations, Title 19, Division 1, Section 568, Table 2, except as modified by California Code of Regulations, Title 19, Division 1, Section 568(d). Extinguishers shall be located so that the maximum travel distances shall not exceed those specified in California Code of Regulations, Title 19, Division 1, Section 568, Table 2, except as modified by California Code of Regulations, Title 19, Division 1, Section 568(d). (b) Certain	Move fire extinguisher to another location near door that allows open access

Date Completed: 8/31/2018

smaller fire extinguishers which are charged with a multipurpose dry chemical or halogenated agent are rated on Class B and Class C fires, but having insufficient effectiveness to earn the minimum 1-A rating even though they have value in extinguishing smaller Class A fires. They shall not be used to meet the requirements of California Code of Regulations, Title 19, Division 1, Section 568, Table 2. (c) Extinguishers as specified in California Code of Regulations, Title 19, Division 1, Section 568, Table 2 may be replaced by uniformly spaced 1 1/2 inch (3.810 cm) hose stations for use by the occupants of the building. When hose stations are so provided, they shall conform to Part 9, Title 24, California Code of Regulations, Chapter 9. The location of hose stations and the placement of fire extinguishers shall be in such a manner that the hose stations do not replace more than every other extinguisher. (d) Where the floor area of a building is less than that specified in California Code of Regulations, Title 19, Division 1, Section 568, Table 2, at least one extinguisher of the minimum size recommended shall be provided. (e) The protection requirements may be fulfilled with extinguishers of a higher rating provided the travel distance from anywhere in the building to such larger extinguishers shall not exceed 75 feet (22.7 m), as shown in California Code of Regulations, Title 19, Division 1, Section 568, Table 2 above. TITLE 19, DIVISION 1, SECTION 568, TABLE 2 [California Code of Regulations, Title 19, Division 1, ?569(a) through (c)] Fire Extinguisher Size and Placement for Class B Fires Other than for Fires in Flammable Liquids of Appreciable Depth. (a) Minimum sizes of fire extinguishers for the listed grades of hazard shall be provided on the basis of California Code of Regulations, Title 19, Division 1, Section 569, Table 3. Extinguishers shall be located so that the maximum travel distances from anywhere in the building shall not exceed those specified in the table used. Exception: Extinguishers of lesser rating, desired for small specific hazards within the general hazard area, may be used, but shall not be considered as fulfilling any part of the requirements of California Code of Regulations, Title 19, Division 1, Section 569, Table 3. TITLE 19, DIVISION 1, SECTION 569, TABLE 3 (b) Two or more extinguishers of lower rating shall not be used to fulfill the protection requirements of California Code of Regulations, Title 19, Division 1, Section 569, Table 3. (c) The protection requirements may be fulfilled with extinguishers of high ratings, provided the travel distance to such larger extinguishers shall not exceed 50 feet (15.25 m), as shown in California Code of Regulations, Title 19, Division 1, Section 569, Table 3. [California Code of Regulations, Title 19, Division 1, ?570(a) through (e)] Fire Extinguisher Size and Placement for Class B Fires in Flammable Liquids of Appreciable Depth. (a) Portable fire extinguishers shall not be installed as the sole protection for flammable liquid hazards of appreciable depth [greater than 1/4 inch (0.64 cm)] where the surface area exceeds 10 square feet (0.93 m²). Exception: Where personnel who are trained in extinguishing fires in the protected hazards are available on the premises, the maximum surface area shall not exceed 20 square feet. (1.86 m²). (b) For flammable liquid hazards of appreciable depth, a Class B fire extinguisher shall be provided on the basis of at least two numerical units of Class B extinguishing potential per square foot (0.0929 m²) of flammable liquid surface of the largest hazard area. For fires involving cooking grease or water-soluble flammable liquids, see California Code of Regulations, Title 19, Division 1, Section 566(b) and 566(d). Exception: AFFF- or FFFP-type extinguishers may be provided on the basis of a 1B rating of protection per square foot of hazard. (c) Two or more extinguishers of lower ratings shall not be used in lieu of the extinguisher required for the largest hazard area. Exception: Up to three AFFF or FFFP extinguishers may be used to fulfill the requirements provided the sum of the Class B ratings meets or exceeds the value required for the largest hazard area. (d) Travel distances for portable extinguishers shall not exceed 50 feet (15.25 m) as shown in California Code of Regulations, Title 19, Division 1, Section 569, Table 3. (e) Scattered or widely separated hazards shall be individually protected. An extinguisher in the proximity of a hazard shall be carefully located to be accessible in the presence of a fire without undue danger to the operator. [California Code of Regulations, Title 19, Division 1, ?571(a)] Fire Extinguisher Size and Placement for Class C Hazards. (a) Fire extinguishers with Class C ratings shall be required where energized electrical equipment can be encountered which would require a nonconducting extinguishing medium. This requirement includes situations where fire either directly involves or surrounds electrical equipment. Since the fire itself is a Class A or Class B hazard, the fire extinguishers shall be sized and located on the basis of the anticipated Class A or Class B hazard. Note: Electrical equipment should be

de-energized as soon as possible to prevent reigniting.

605.5	Room D-6	Extension cords and flexible cords shall not be a substitute for permanent wiring. Extension cords and flexible cords shall not be affixed to structures, extended through walls, ceilings or floors, or under doors or floor coverings, nor shall such cords be subject to environmental damage or physical impact. Extension cords shall be used only with portable appliances.	Extension cords are not allowed to be used in place of permanent wiring
605.5.1	Room D-6	Extension cords shall be plugged directly into an approved receptacle, power tap or multiplug adapter and, except for approved multiplug extension cords, shall serve only one portable appliance.	Replace with a power strip that has surge protection
605.3	Room D-7	A working space of not less than 30 inches (762 mm) in width, 36 inches (914 mm) in depth and 78 inches (1981 mm) in height shall be provided in front of electrical service equipment. Where the electrical service equipment is wider than 30 inches (762 mm), the working space shall be not less than the width of the equipment. Storage of materials shall not be located within the designated working space. Exceptions: ?Where other dimensions are required or allowed by?California Electrical Code. ?Access openings into attics or under-floor areas which provide a minimum clear opening of 22 inches (559 mm) by 30 inches (762 mm).	Move items away from the electrical panel door
605.5.1	Room D-7	Extension cords shall be plugged directly into an approved receptacle, power tap or multiplug adapter and, except for approved multiplug extension cords, shall serve only one portable appliance.	Replace with a power strip that has surge protection
605.5.1	Room E-2	Extension cords shall be plugged directly into an approved receptacle, power tap or multiplug adapter and, except for approved multiplug extension cords, shall serve only one portable appliance.	Replace with a power strip that has surge protection
605.5.1	Room E-5	Extension cords shall be plugged directly into an approved receptacle, power tap or multiplug adapter and, except for approved multiplug extension cords, shall serve only one portable appliance.	Replace with a power strip that has surge protection
605.5	Room F-1 orange extension cord at teachers desk	Extension cords and flexible cords shall not be a substitute for permanent wiring. Extension cords and flexible cords shall not be affixed to structures, extended through walls, ceilings or floors, or under doors or floor coverings, nor shall such cords be subject to environmental damage or physical impact. Extension cords shall be used only with portable appliances.	Extension cords are not allowed to be used in place of permanent wiring
605.5	Room F-2	Extension cords and flexible cords shall not be a substitute for permanent wiring. Extension cords and flexible cords shall not be affixed to structures, extended through walls, ceilings or floors, or under doors or floor coverings, nor shall such cords be subject to environmental damage or physical impact. Extension cords shall be used only with portable appliances.	Extension cords are not allowed to be used in place of permanent wiring
605.5.1	Room F-5 power strip on projector cart does not have surge protection	Extension cords shall be plugged directly into an approved receptacle, power tap or multiplug adapter and, except for approved multiplug extension cords, shall serve only one portable appliance.	Replace with a power strip that has surge protection
605.3	Multi purpose room	A working space of not less than 30 inches (762 mm) in width, 36 inches (914 mm) in depth and 78 inches (1981 mm) in height shall be provided in front of electrical service equipment. Where the electrical service equipment is wider than 30 inches	Ladders blocking electrical

Admin Information

Was this a service call: No

Was this a code enforcement call: No

Re-inspection Scheduled Date: 08/31/2018 08:07:32

Occupancy Type: E-Educational-Educational use for more than 6 persons through the 12th grade and/or daycares more than 6 children two years of age and older for education, supervision, or personal care services for less than 24 hours, and more.

Date Completed: 8/31/2018

PRIOR TO AN INSPECTION

TO DO'S PRIOR TO A INSPECTION: LOCATION, OCCUPANCY, CONTACTS

Revised 8/15/2018

LOCATION

- A is a physical location, such as an address, site or building used for recording and documenting property inspections. Buildings may contain one or more occupants. Location records include building information, pre-plan information and other building-related information such as maps or hydrants.
- Prior to any inspection you will want to ensure the location is entered into Image Trend
- Navigation: *Locations > View Existing > Locations*

Locations List

Status: All Search All Columns

Refresh:

Property Use:

Inspection District/Code:

Building Use:

LOCATION

- If the location is NOT in Image Trend you will have to add the location
- **Navigation:** *Locations* > *Create New* > *Locations*
- From inside a location record, complete the fields on the locations form.

The screenshot shows the 'LOCATION' form with the following fields highlighted in red:

- Name
- Address
- Property Tax ID
- Federal/Provincial Identification Number (FSTN)

The status bar at the bottom indicates 'Nothing Entered'.

LOCATION

- Remember the "Name" will be the street address.
- All **RED** highlighted boxes are required.
- Always use the "Set From Postal Code" Box. This will ensure the correct zip.
- The goal is to reach a validation score of 100.
- Finally **SAVE** your work

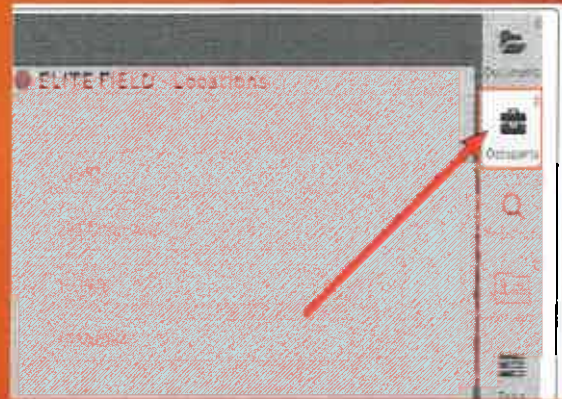

The screenshot shows the 'LOCATION' form with the following fields highlighted in red:

- Name
- Address
- Property Tax ID
- Federal/Provincial Identification Number (FSTN)

The status bar at the bottom indicates 'Nothing Entered'. A yellow circle highlights the 'Save' button.

OCCUPANTS

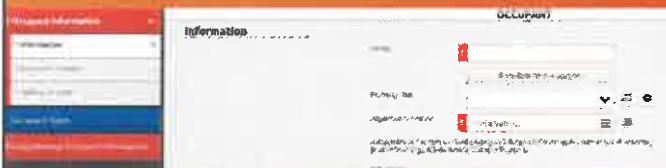

- Next you will need to add a new occupant
- There are two ways you can create or navigate to an occupant record
 - *Inside a location > Occupants*
 - *Elite > Locations tab > Occupants list*
- Each occupant requires a location.
- To add from location (see photo)

OCCUPANTS

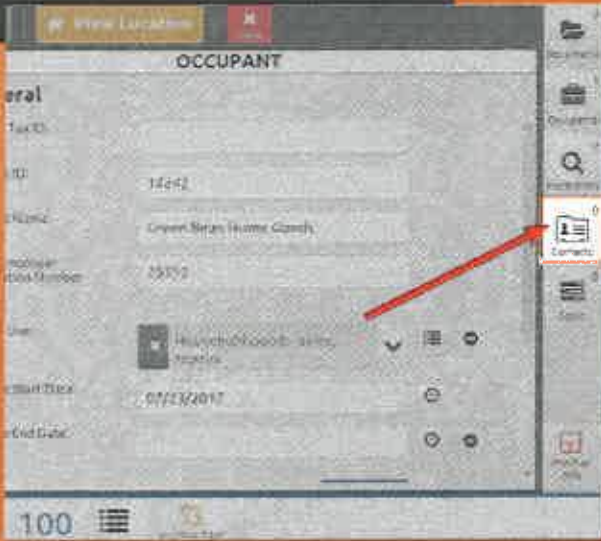

- Click on NEW → Next complete the occupants fields as needed.
- Remember the **RE** boxes are required fields.
- You can click on the Populate from the Location box. **SEE SLIDE 8** This will populate the occupant fields with the location's address fields. You will have to change the "Name" Field to reflect the Occupant name NOT the address.

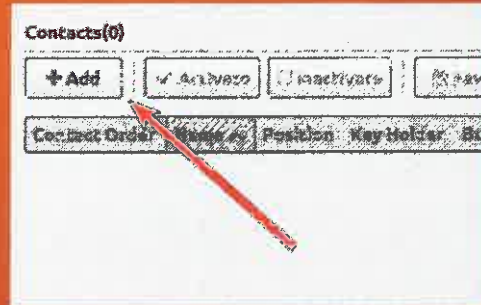

Populate from Location

CONTACTS - OCCUPANT

- After you have set up all the occupant information you will then add the contact information for the Occupant.
- From inside occupant click on Contacts. Next click on Add

OCCUPANTS- Populate From Location

- PLEASE NOTE: when you populate from location on the occupants page this will change the name from the Occupants name to the Location name. The Location Name is ALWAYS the address, so it is important to go back and change the Occupant Name to reflect the actual NAME of the OCCUPANT not the address.
- If you click on the "Populate from Location on the "Occupant Address" Tab you will have to go back to the "Information" Tab.

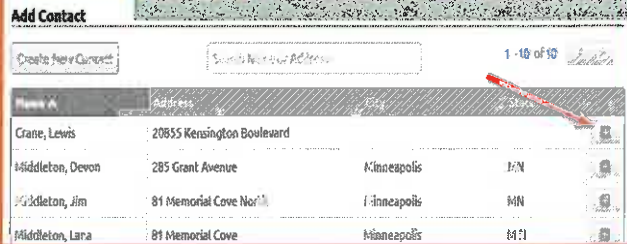

- Choose to create a new contact or add an existing contact:

To create a new contact, click Create New Contact and complete the contact's fields as needed

ADD CONTACT

To add an existing contact, click the arrow to open the contact's record

NEW CONTACT

CONTACTS

CONTACT - OCCUPANT

- After you have completed the contact information you will have the ability to order the contacts on how you would contact them. Also identify who would have the keys. You can also make changes on this page, activate or deactivate.
- It is very important you get as much information as possible -especially the email information to send inspection letters.

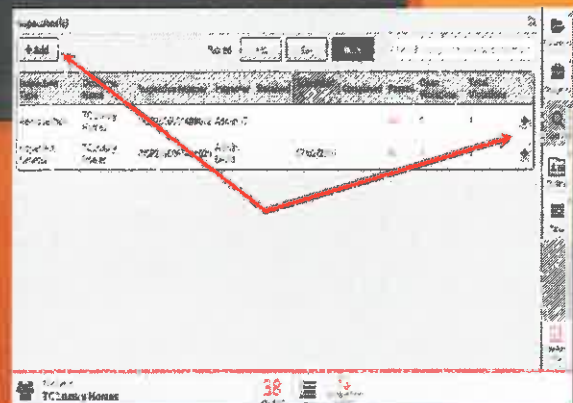

INSPECTIONS

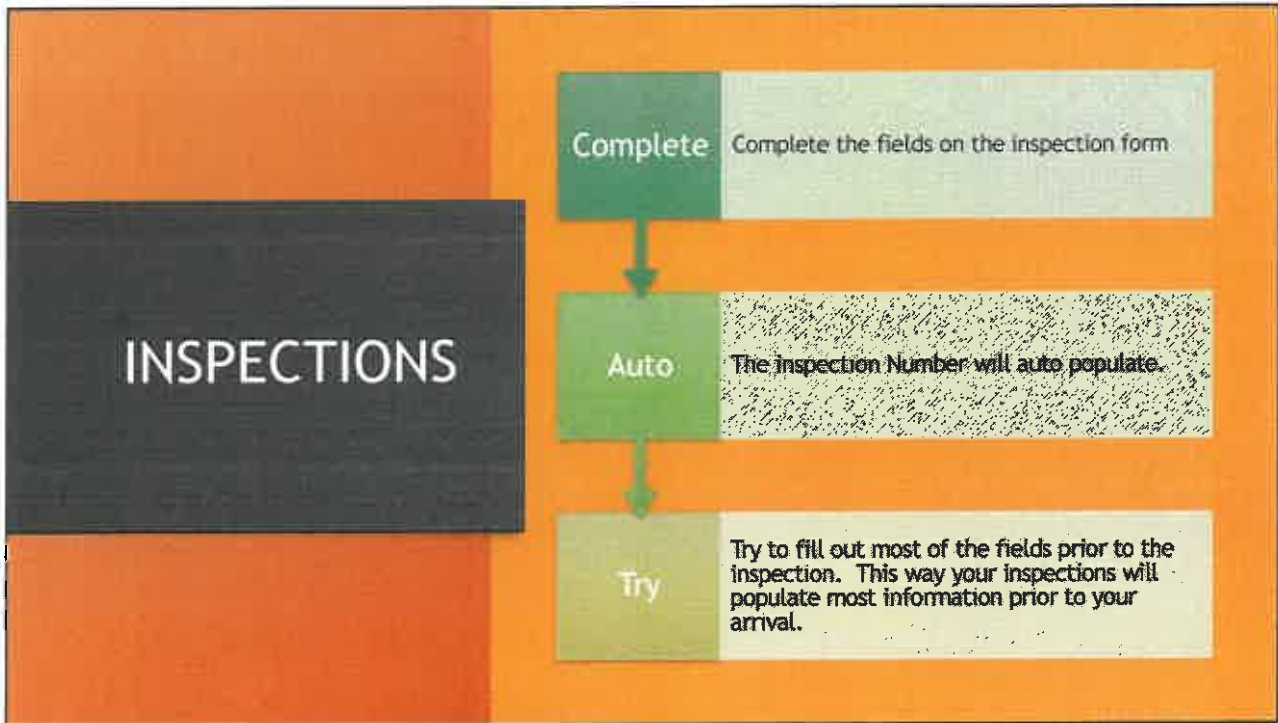

- You can only create inspections for active occupants and locations. There are a few ways to navigate to inspections and each requires or allows options.
 - From **Elite** you can choose to add an inspection to a location, an existing occupant or to a new occupant that you create.
 - From an **Occupant** record you can add an inspection or edit the occupant's existing inspections.
 - From a **Location** record you are required to choose an existing occupant or create a new occupant to add the inspection to.

INSPECTIONS

- From an occupant - from inside an occupant record click on inspections

Choose to add a new inspection by clicking Add, or opening an existing inspection

INSPECTIONS: Primary Info

- The left hand side has tabs that you need to fill out prior to your inspection:
- PRIMARY info
- Inspection Type
- The reason
- Was this an enforcement call?
- Was this a service call?
- Who is the inspector for this inspection (it is ok for this to be blank however if you want this to show up on the inspectors list- you will want to identify who it will be)
- The primary contacts will be available because you had already put in your contacts for the occupancy

inspection number: 2006-0000

inspection Type: General Inspection

Reason: Scheduled Sp/so-up Permit

Complaint: Complaint

Was this a code enforcement call? Yes No

Was this a service call? Yes No

Inspector: Find a Value

Necessary Permit

Primary Contact: Add Contact Remove Contact

This opens to show all options

INSPECTIONS: Dates/Times

- Dates and Times:
- Date Scheduled is the inspection date
- Date completed will be completed when you finish the PHYSICAL inspection. If you have to come back to the office to complete work on the inspection please use the "tasks"
- Start Time, use this when you start the inspection
- End time, use this when complete
- Calculate Staff Hours click on this after you have entered the end time; this will calculate your hours doing the physical inspection.

Date Scheduled	07/21/2018

IMAGETREND®

HOW TO ENTER AN INSPECTION INTO IMAGE TREND

fppt.com

IMAGE TREND: Inspection Field Navigation

- The Inspections Field Dashboard is where you create or edit an existing inspection, location or occupant records while using a mobile device.

fppt.com

IMAGE TREND: Inspection Field Navigation

- The first sync, which occurs the first time you log in to Inspections Field, can take a long time as all records are syncing to your Inspections Field.
- All location, occupant and inspection records appear on the Inspections Field Dashboard.
- **Best Practice:**
- Sync at the beginning of a shift and at the end of the shift, to ensure you have the most up-to-date information and to upload your changes to Elite.
- You can only sync while connected to the internet.
- The scroll bar and the paging arrows allow you to view the records on the current page, or to switch to another page.

imgt.com

The screenshot displays the 'IMAGE TREND Inspection Field Navigation' interface. On the left, a sidebar contains a 'Locations' filter with a count of 1, an 'Occupants' filter with a count of 10, and a date range selector with 'mm/dd/yyyy' fields. The main content area shows a list of inspections, each with a date, location, and status. The first inspection is dated 'Jan 18' and is for 'Lucky Leaf's Jewelry' at '34 Cedar Avenue, Minneapolis, MN 55455'. The second is dated 'Jan 18' for 'Residential Burn Permit' at '3722 South Grand Avenue, Minneapolis, MN 55455'. The third is dated 'Jan 18' for 'Conference Permit' at '34 Cedar Avenue, Minneapolis, MN 55455'. The fourth is dated 'Nov 16' for 'Green Bean Home Goods' at '36 Olney Way, City of Minneapolis, MN 55445'. A 'New Inspection' button is located at the top right. At the bottom, a navigation bar includes 'Sync', 'Inbox', 'About', and 'Logout' buttons, along with a 'Welcome, ImageTrend Admin!' message.

IMAGE TREND: Inspection Field Navigation

1. **Inspection, Locations and Occupants tab:** switch to view or create new inspection, location or occupant records.
2. **Filters and Search:** Use the filters and the Search box to locate records.
3. **New:** Click the *New* button to create a new inspection, location or occupant record based on the selected tab.
4. **Inspection, Location & Occupant records:** The records of the selected tab appear in the center. Click the right arrow to open the records.
5. **Navigate Records:** If you have more than 25 records, use the left / right arrows to page through the records. Use the scroll bar to view the records displayed on each page.
6. **Your Name:** The name of the user currently logged in to Inspections Field.
7. **Sync:** Click *Sync* to upload your changes to pull down changes from Elite.
8. **Inbox:** Click *Inbox* to navigate to your Inbox in Elite. Please note, internet is required to navigate to Inbox.
9. **About:** Click *About* to view version information and to upload diagnostic data.
10. **Logout:** Click *Logout* to log out of Inspections Field.

imgt.com

ADDING A NEW INSPECTION

- From the Inspections Field Dashboard, click - Inspection

The selection tab is **Inspection** and you now create new records of that type. Here an example checked to point the list of the available records.

Job	Location	Status	Inspector
Jan 18	Residential Burn Permit Rise Repairs Ltd 1722 Smith Grand Avenue, Minneapolis, MN 55425	100	Sania, ImageTrend
Jan 18	Confidence Permit An Car Wash Cafe 24 Cedar Avenue, Minneapolis, MN 55415	100	Sania, ImageTrend

ADDING A NEW INSPECTION

Choose where to add the inspection, an existing occupant location, or click Create New Occupant to add a new occupant.

New Inspection

1 - 7 of 7

Name	Property Use	City
Elite's Steak House	Restaurant or cafe/food	Minneapolis
Apt. 2000/1000	General repair shop	
Creative Leans and Lends	Mercantile business, other	Minneapolis
Laid's Lawn Service	Specialty shop	Minneapolis
The Stack It Tech	Professional supplies, services	Minneapolis
Sawmills & Beards	Professional supplies, services	Minneapolis
Sawmills By Wood	Professional supplies, services	Lakewood

ADDING A NEW INSPECTION

- Complete the fields on the inspection form (please see prior to an inspection PowerPoint)

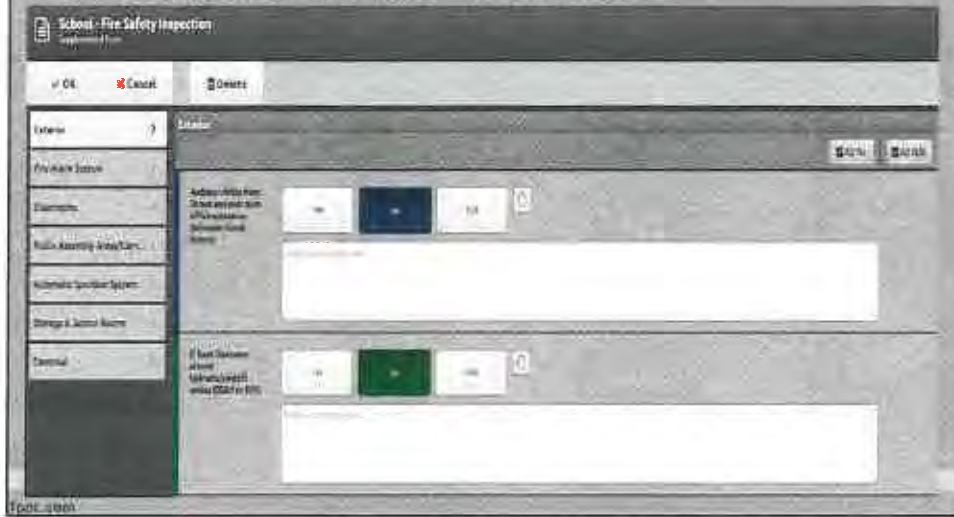

COMPLETING INSPECTION SUPPLEMENTAL FORMS

- Inside the inspection resides the Inspection Supplemental form.

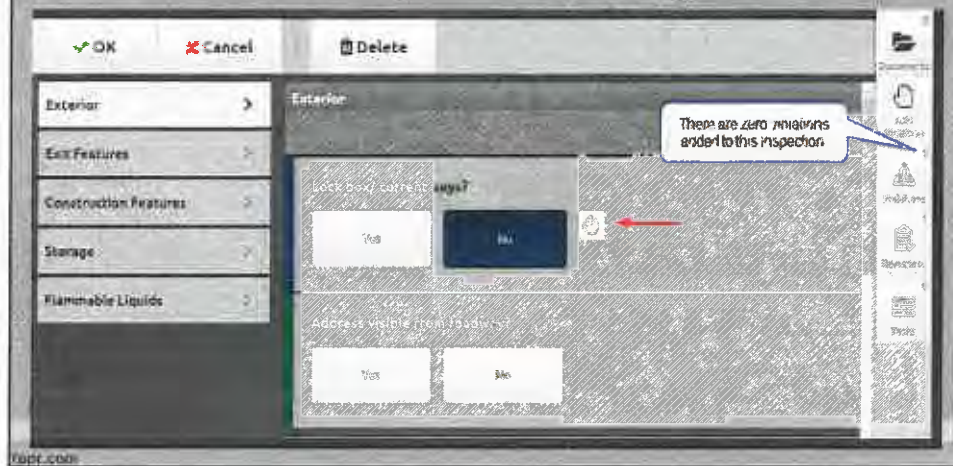

COMPLETING INSPECTION SUPPLEMENTAL FORMS

- Complete or edit the fields as needed.

COMPLETING INSPECTION SUPPLEMENTAL FORMS

- Add violation to Yes/No and single select questions with an application violation, by clicking the hand icon

COMPLETING INSPECTION SUPPLEMENTAL FORMS

- Choose to add an applicable violation or search for other violations.

To add an applicable violation, click the right arrow

The violation is applied to the inspection

To edit the violation's details, click Violations, select the violations and edit the fields as needed.

COMPLETING INSPECTION SUPPLEMENTAL FORMS

- To add additional violations

To add another violation, click Add Other Violations

In the Violation Code field, choose how to add a violation. (see next slide)

Snack	Code	Category	Description
JCC 2015	506.1	KEY BOXES - Where required	Where access to or within structure or an area is restricted by immediate access necessary for life-saving or fire-fighting purposes, fire extinguishers shall be installed in an approved location. The fire extinguisher shall comply with UL 1037, and shall contain keys to gain access.

COMPLETING INSPECTION SUPPLEMENTAL FORMS

- Violation Code Field

If you know the code, enter the code in the Violation Code Field and press Enter on your Keyboard

There is 1 violation applied to this inspection

The violation is applied to the inspection

COMPLETING INSPECTION SUPPLEMENTAL FORMS

- If you need to Search for the Code

Click on the magnifying glass icon and type a term to search for violations. Then click the magnifying glass icon to add the violation.

There is 1 violation applied to this inspection

The violation is applied to the inspection

COMPLETING THE INSPECTION REPORT

COMPLETING THE INSPECTION REPORT AS REQUIRED - PART 211

Click on the X icon in the top right corner of the Violations window.

Violations(1)

→ Add

Violation No.	Violation	Snapshot	Approved	Violated	Violated Date
0032	0032	0032	0032	0032	0032
0032	0032	0032	0032	0032	0032

All piping materials, fittings, joints, connections and devices associated with systems utilized in conjunction with pressure vessels shall be designed for the specific application and shall be approved.

answered.

All questions must be answered.

INSPECTION COMPLETE

Complete the final table of the inspection report.

Date Scheduled: 07/21/2018

Date Completed: []

Start Time: 06/21/2018 16:21:38

End Time: 06/21/2018 17:21:39

Calculate Staff Hours

Staff Hours: []

Enter the date of completion. This allows completion when you finish your SAT inspection. You have to enter back to start of final complete hour of the inspection. Please use the date and time as the date and time of completion.

Finally, you will calculate the staff hours for this inspection. You have an area to enter the staff hours and you will calculate the staff hours for the inspection.

INSPECTION RESULTS

On the Results tab you will enter the following:

The screenshot shows a web form titled 'INSPECTION'. At the top, there is a 'Passed' section with two radio buttons labeled 'Yes' and 'No'. Below that is a 'Notes' section with a large, empty text area. At the bottom, there is a 'Violations' section with an 'Add' button and a table with columns for 'Violation', 'Description', 'Priority', and 'Status'. The table is currently empty.

Did the inspection pass or fail?

Any additional notes?

Below will be a list of all the violations for this inspection.

You can check your violations on this page as well.

INSPECTION SIGNATURE

- To add the signature follow the steps below:
 - Click on the Add button
 - You will choose if you want to add the Inspector or Representative Signature

The screenshot shows a section titled 'Signatures'. It contains two input fields. The first is labeled 'Inspector Signature' and the second is labeled 'Representative Signature'. Both fields are currently empty.

INSPECTION SIGNATURE

Fill out the form for the respective party:

If the inspector contacts have already been assigned, you can click on  to auto populate form.

Click on OK when done.

Repeat same process for next signature.

RE-INSPECTION

HOW TO ENTER A RE-INSPECTION INTO IMAGE TREND

RE-INSPECTION-NAVIGATION

- The Inspections Field Dashboard is where you create or edit a re-inspection, inspection, location or occupant records while using a mobile device.

INSPECTION FIELD NAVIGATION

Under the inspection tab you are able to locate all inspections and Re-inspections. You can also locate a Re-inspection under the Occupants tab.

See the "How to Enter an Inspection into Image Trend" (slide 4) for all details on navigating through the Field Navigation module

01

The Re-Inspection should have already been put into Image Trend at the end of the initial inspection however, if it was not follow the these instructions.

02

Navigate to the Occupant tab.

03

Locate the occupant who needs the Re-Inspection. Locate the original inspection. You will find the inspections on the tabs on the right hand side of the page.

RE-INSPECTION

RE-INSPECTION

- Click on the arrow for the base inspection

Inspections(3)

Inspection Type	Display Name	Inspection Number	Inspector	Reviewed	Completed	Passed	Open Violations	Total Violations	
Re-Inspection	AAA Willow Doggie Playground	1808-0423					2	2	
Annual	AAA Willow Doggie Playground	1808-0121	Inspector: Robert	08/22/2018	10/22/2018		2	2	
Re-Inspection	AAA Willow Doggie Playground	1808-0122		08/24/2018	08/24/2018	No	2	2	

On the right hand side you will now click on Reinspect.

RE-INSPECTION

- Now click Add or you if you had already entered your Re-Inspection you can select your Re-Inspection here

Reinspections(2) For Inspection 1808-0121

Inspection Number	Inspector	Reviewed	Completed	Passed	Open Violations	Total Violations	
				No	2	2	
				No	2	2	

Note: A pink callout bubble points to the '+Add' button with the text: 'Add or choose a the scheduled Re-Inspection'. A pink arrow points from the callout to the '+Add' button.

RE-INSPECTION

Complete the fields on the inspection form. Ensure you mark in the Inspection Type that this is a "Re-Inspection"

Complete the following tabs:

Date/Time (follow the same format as the inspection to ensure we collect all Staff Hours)

At the end of the inspection - the Results tab

The signatures from the Inspector and Representative

RE-INSPECTION

- Proceed to the Violations tab on the right-hand side of the screen
- You will proceed through each violation/location and check if this violation has been corrected and/or repaired.
 - If it has you will enter in the corrected/repaired date and time
 - If it has **NOT** you will you will enter in a NEW Re-Inspection date
 - Click OK

Violation

OK Cancel Delete Duplicate Violation

Inspection Scheduled Date Is Within next_30_days
Inspection Scheduled Date Is Blank
Inspection Reinspection Flag Is Equal To 1

Description

Inspection records created that have a scheduled date within 30 days OR no scheduled exists

Exterior

Add Violation (5)

Supplemental Form Question - Yes/No

Address visible from Street and near main office entrance (minimum 4-inch letters)

Add Violation(1)

Supplemental Form Question - Yes/No

3' Foot Clearance around hydrants/shutoff valves (OS&Y or P/V)

Add Violation (3)

Supplemental Form Question - Yes/No

Fire lane identified/clear of all obstructions painted red, marked "no parking fire lane"

Add Violation (2)

Supplemental Form Question - Yes/No

Knox Box/Lock/or keys up to date for emergency access

Fire Alarm System

Add Violation (4)

Supplemental Form Question - Yes/No

FACP location identified and panel in "Normal" mode without trouble/supervisory alarms

Add Violation (4)

Supplemental Form Question - Yes/No

Documentation of fire drills, annual fire alarm testing, monitoring on site

Add Violation (3)

Supplemental Form Question - Yes/No

Repair or replace damaged pull boxes and smoke/heat detectors

Add Violation (1)

Supplemental Form Question - Yes/No

Site plan of campus showing fire alarm zones provided at FACP

Classrooms

Add Violation (1)

Supplemental Form Question - Yes/No

Wall covering in classrooms shall not exceed 50%

Add Violation (2)

Supplemental Form Question - Yes/No

Manual pull boxes visible and accessible

Add Violation (5)

Supplemental Form Question - Yes/No

Extinguishers properly hung and visible with current inspection date

Add Violation (0)

Supplemental Form Question - Yes/No

All evacuation routes clearly posted

Add Violation (1)

Supplemental Form Question - Yes/No

Exit doors open without key, special knowledge or effort and exits unobstructed

Public Assembly Areas/Corridors

Add Violation (1)

Supplemental Form Question - Yes/No

Occupant load signs clearly posted, and evacuation routes clearly posted

Add Violation (1)

Supplemental Form Question - Yes/No

Emergency lighting and Exit signs operable

Add Violation (2)

Supplemental Form Question - Yes/No

Aisles/Corridors/Stairs and Exits clear of obstructions, storage or tripping hazards

Add Violation (1)

Supplemental Form Question - Yes/No

All decorations/drapes/curtains flame proof with appropriate labels

Public Assembly Areas/Corridors - Continue

Add Violation (1)
Supplemental Form Question - Yes/No
Wall covering in corridors shall not exceed 20%

Add Violation (6)
Supplemental Form Question - Yes/No
Panic hardware working (immediately remove locks/latches/chains)

Automatic Sprinkler System

Add Violation (1)
Supplemental Form Question - Yes/No
Valves locked and chained in open position

Add Violation (1)
Supplemental Form Question - Yes/No
Spare heads and wrench in the fire control room

Add Violation (2)
Supplemental Form Question - Yes/No
Location of riser/control valves identified with signage

Add Violation (3)
Supplemental Form Question - Yes/No
3' feet access to all control valves

Add Violation (1)
Supplemental Form Question - Yes/No
Repair or replace damaged/painted/missing sprinkler heads/DC caps

Add Violation (3)
Supplemental Form Question - Yes/No
Inspection reports for quarterly/annual testing and 5 Yr. Cert

Storage & Janitor Rooms

Add Violation (1)

Supplemental Form Question - Yes/No

Minimum 2'-foot clearance from ceiling (non-sprinklered building)

Add Violation (1)

Supplemental Form Question - Yes/No

Minimum 18' clearance from ceiling (sprinklered building)

Add Violation (1)

Supplemental Form Question - Yes/No

Oil and paint rags stored in a metal container with a tight-fitting lid

Add Violation (1)

Supplemental Form Question - Yes/No

Is fueled equipment stored, operated or repaired within a building
(lawnmower/blower)

Electrical

Add Violation (2)

Supplemental Form Question - Yes/No

Provide cover plates for all junction boxes

Add Violation (4)

Supplemental Form Question - Yes/No

Discontinue use of extension cords used in place of permanent wiring and non-listed power strips

Add Violation (0)

Supplemental Form Question - Yes/No

Electrical Rooms clear and "No Storage" signs posted

Add Violation (2)

Supplemental Form Question - Yes/No

Provide 30"-inch clear space around electrical panel

Add Violation (2)

Supplemental Form Question - Yes/No

Remove exposed wiring or protect in approved conduit

Access

Add Violation (2)

Supplemental Form Question - Yes/No

Maintain fire lane free of obstructions

Add Violation (1)

Supplemental Form Question - Yes/No

Provide fire lane identification

Add Violation (1)

Supplemental Form Question - Yes/No

Provide address numbers/building ID visible from street

Add Violation (1)

Supplemental Form Question - Yes/No

Provide approved key box/lock/switch and/or keys for fire dept. access

Exiting

Add Violation (1)

Supplemental Form Question - Yes/No

Remove obstructions at exits, doors, aisles, corridors, stairways, etc.

Add Violation (1)

Supplemental Form Question - Yes/No

Exit door to open without a key or any special knowledge/effort

Add Violation (1)

Supplemental Form Question - Yes/No

Provide sign over main exit door - "This door to remain unlocked when building is occupied"

Add Violation (1)

Supplemental Form Question - Yes/No

Repair non-operable exit door hardware

Add Violation (1)

Supplemental Form Question - Yes/No

Remove obstructions from door required to be self-closing and latching

Exiting -continue

Add Violation (1)

Supplemental Form Question - Yes/No

Remove locks/latches from doors with panic hardware

Add Violation (1)

Supplemental Form Question - Yes/No

Remove storage from under unprotected stairway

Add Violation (1)

Supplemental Form Question - Yes/No

Provide/maintain exit sign/emergency lighting

Fire Extinguishers

Add Violation (1)

Supplemental Form Question - Yes/No

Have fire extinguisher(s) serviced and tagged by state licensed company T-19
596

Add Violation (1)

Supplemental Form Question - Yes/No

Provide/mount fire extinguisher(s)

Add Violation (1)

Supplemental Form Question - Yes/No

Provide clear access to fire extinguisher

Add Violation (1)

Supplemental Form Question - Yes/No

Post a sign indicating fire extinguisher location (where needed)

Fire Protection Equipment

Add Violation (1)

Supplemental Form Question - Yes/No

Maintain, repair, paint, inspect, and/or test sprinkler/standpipe
system/hydrant/DC/PIV

Add Violation (2)

Supplemental Form Question - Yes/No

Maintain 3-foot minimum clearance for access/use of fire appliances/equipment

Fire Protection Equipment - continue

Add Violation (1)

Supplemental Form Question - Yes/No

Secure all control valves in the open position using approved locks/electronically supervised

Add Violation (1)

Supplemental Form Question - Yes/No

Replace damaged/painted/ missing/ Sprinkler heads/DC caps/Heat detectors etc.

Add Violation (1)

Supplemental Form Question - Yes/No

Provide 5-year certification per NFPA 25 for fire sprinkler/standpipe system

Add Violation (1)

Supplemental Form Question - Yes/No

Provide sprinkler coverage in unprotected areas

Add Violation (1)

Supplemental Form Question - Yes/No

Provide spare sprinkler heads (min. 6) and/or compatible wrench

Add Violation (1)

Supplemental Form Question - Yes/No

Service automatic fire extinguishing system semi-annually

Add Violation (1)

Supplemental Form Question - Yes/No

Remove grease from hood, duct, and filters (KEEP CLEAN)

Fire Alarm Systems

Add Violation (1)

Supplemental Form Question - Yes/No

Maintain, repair, inspect, and/or test fire alarm system

Add Violation (1)

Supplemental Form Question - Yes/No

Provide/maintain operable smoke detectors in each dwelling unit

Fire Separation

Add Violation (1)
Supplemental Form Question - Yes/No
Repair holes in required fire-resistive construction

Add Violation (1)
Supplemental Form Question - Yes/No
Provide/repair self/automatic-closing fire rated assemblies

Add Violation (1)
Supplemental Form Question - Yes/No
Keep attic access and scuttle openings closed

Electrical

Add Violation (1)
Supplemental Form Question - Yes/No
Discontinue use of extension cords

Add Violation (1)
Supplemental Form Question - Yes/No
Install permanent wiring for fixed and stationary appliances in use more than 90 days

Add Violation (1)
Supplemental Form Question - Yes/No
Provide cover plates for all junction boxes. Provide spacers for electrical panel

Add Violation (1)
Supplemental Form Question - Yes/No
Remove exposed wiring or protect in approved conduit

Add Violation (1)
Supplemental Form Question - Yes/No
Provide 30-inch clear space around electrical panel

Add Violation (1)
Supplemental Form Question - Yes/No
Maintain wiring in good condition and protect from damage

Flammable Liquids/Compressed Gases

Add Violation (1)

Supplemental Form Question - Yes/No

Provide a flammable liquid storage cabinet or reduce storage to 10 gallons or less

Add Violation (1)

Supplemental Form Question - Yes/No

Remove all flammable and combustible liquids not used for maintenance purposes

Add Violation (1)

Supplemental Form Question - Yes/No

Store flammable and combustible liquids away from exits, stairs, or corridors

Add Violation (1)

Supplemental Form Question - Yes/No

Clean up spilled flammable liquids/Provide secondary containment.

Add Violation (1)

Supplemental Form Question - Yes/No

Replace lids on all hazardous materials storage not in immediate use

Add Violation (1)

Supplemental Form Question - Yes/No

Fueled equipment shall not be stored, operated or repaired within a building

Add Violation (1)

Supplemental Form Question - Yes/No

Secure compressed gas cylinders. Identify product name

Storage / Housekeeping

Add Violation (1)

Supplemental Form Question - Yes/No

Arrange storage in an orderly manner

Add Violation (1)

Supplemental Form Question - Yes/No

Remove combustibile storage from boiler, mechanical, and electrical room

Storage / Housekeeping - continue

Add Violation (1)

Supplemental Form Question - Yes/No

Reduce storage to 24 inches below ceiling or 18 inches below sprinkler heads

Add Violation (1)

Supplemental Form Question - Yes/No

Self-closing metal cans shall be used for oily waste

Add Violation (1)

Supplemental Form Question - Yes/No

Remove lint/debris from behind washers and dryers

Add Violation (2)

Supplemental Form Question - Yes/No

Remove waste/rubbish materials from the premises

Add Violation (1)

Supplemental Form Question - Yes/No

Keep dumpsters 5 feet away from combustibile walls, eaves, or openings

Add Violation (1)

Supplemental Form Question - Yes/No

Provide minimum 30 feet clearance between building and combustibile growth

Miscellaneous

Add Violation (1)

Supplemental Form Question - Yes/No

Other violations and comments
